Billy Hazelnuts Currency

One of America's finest gay poets whose flat, dry, conversational Midwestern voice speaks with honesty and self-deprecating humor about the buttoned-down 1950s, the unbuttoned 1960s, and the out, proud, but embattled decades that have followed.

'Does culture create competitive advantage? Case closed in this compelling analysis of sporting success. Read it.' – James Kerr, bestselling author of *Legacy*. In *The Barcelona Way*, sports psychologist Prof. Damian Hughes draws on exclusive insight into FCB as well as first-hand research from organizational psychology, to set out a method to create your own high-performance culture. At the heart of FCB's winning culture are a set of principles, epitomized by Pep Guardiola, Johan Cruyff, Lionel Messi and many other FCB legends, which govern how to nurture talent, prepare for change and provide the best environment to build a culture of sustained success. These principles: Big Picture, Arc of Change, Repetition, Cultural Architects, Authentic Leadership are at the heart of FCB's unprecedented domination of football, and are the key to developing high-performance cultures in any team-based organisation across every industry. *The Barcelona Way* is a hugely practical must-read that sets out a clear plan, based on the same principles, for you to create a culture of success and get the best of yourself and your team.

*The Failed Promise of Transhumanism* Indiana University Press

A tightly argued and expansive examination of the pitfalls of transhumanism that reacquaints us with what it means to live well. Advocates of transhumanism, or "radical" enhancement, urge us to pursue the biotechnological heightening of select capacities - above all, cognitive ability - so far beyond any human limit that the beings with those capacities would exist on a higher ontological plane. For proponents of such views, humanity's self-transcendence through advancements in

science and technology may even be morally required. Consequently, the human stakes of how we respond to transhumanism are immeasurably high. In *Posthuman Bliss? The Failed Promise of Transhumanism*, Susan B. Levin challenges transhumanists' overarching commitments regarding the mind and brain, ethics, liberal democracy, knowledge, and reality, showing their notion of humanity's self-transcendence into "posthumanity" to be little more than fantasy. Uniting philosophical with scientific arguments, Levin mounts a significant challenge to transhumanists' claim that science and technology support their vision of posthumanity. In a clear and engaging style, she dismantles transhumanists' breezy assurances that posthumans will emerge if we but allocate sufficient resources to that end. Far from offering theoretical and practical "proof of concept" for the vision that they urge upon us, Levin argues, transhumanists engage inadequately with cognitive psychology, biology, and neuroscience, often relying on questionable or outdated views within those fields. Having shown in depth why transhumanism should be rejected, Levin argues forcefully for a holistic perspective on living well that is rooted in Aristotle's virtue ethics but that is adapted to liberal democracy. This holism is thoroughly human, in the best of senses: It directs us to consider worthy ends for us as human beings and to do the irreplaceable work of understanding ourselves rather than relying on technology and science to be our salvation.

Not since the 19th century has the future of the countryside been such a focus of political and public attention, nor of profound uncertainty and anguished debate. A watershed has now been reached, and in this time of unprecedented change, new tools are needed for planning and managing the countryside. Increasingly the 'drivers' of countryside management and conservation are European and international. They aim to provide comprehensive new frameworks for the whole countryside, and encourage community-driven planning and protection. There have been numerous responses at the country and local levels within the UK. In this book, a broad range of scholars and practitioners review the international drivers affecting countryside policy and practice, and - through a variety of case studies - they assess the value of country and local responses. The result is a powerful and coherent volume that provides a fully up-to-date review and analysis of the pressures on the countryside, the policies for the future and the keys to successful implementation. Countryside Planning is essential reading for planners, local authorities and rural organizations, conservationists and environmental groups, as well as academics and students in planning, rural studies, environmental studies and geography.

Publishing to coincide with Bradt's 40th anniversary, *The Irresponsible Traveller* is a light but edgy collection of travellers' tales. Travel writers and celebrities alike recount their exciting, and often dangerous, adventures which include being chased by a sea lion, accosted by Brazilian kidnappers

and a midnight raid to free turtles on the Amazon. Over 40 years Bradt has built a reputation for publishing books covering the road less travelled, and this collection celebrates exactly the sort of writing and storytelling about 'unusual' travel experiences that has helped to establish the company as a firm favourite amongst adventurous travellers. Featuring contributions from Hilary Bradt, Michael Palin, Ben Fogle and Jonathan Scott, the title is a perfect tome to dip in and out of.

*A Perfect Day* Penguin

This book discusses the contribution of individual men to the emancipation of women between 1860-1920. These include the pioneer of feminism, J.S. Mill, the allies of Josephine Butler, the men who risked imprisonment for making available information on contraception, and sympathetic writers such as Meredith and Shaw. There are also chapters on the suffrage, education, religion, medicine, and entry to other professions. The role of men in removal of women's social disabilities is described as well as Gandhi's innovative involvement of women in the independence movement.

NOW A MAJOR MOTION PICTURE, STARRING JASON SEGAL AND JESSE EISENBERG, DIRECTED BY JAMES PONSOLDT An indelible portrait of David Foster Wallace, by turns funny and inspiring, based on a five-day trip with award-winning writer David Lipsky during Wallace's Infinite Jest tour In David Lipsky's view, David Foster Wallace was the best young writer in America. Wallace's pieces for Harper's magazine in the '90s were, according to Lipsky, "like hearing for the first time the brain voice of everybody I knew: Here was how we all talked, experienced, thought. It was like smelling the damp in the air, seeing the first flash from a storm a mile away. You knew something gigantic was coming." Then Rolling Stone sent Lipsky to join Wallace on the last leg of his book tour for Infinite Jest, the novel that made him internationally famous. They lose to each other at chess. They get iced-in at an airport. They dash to Chicago to catch a make-up flight. They endure a terrible reader's escort in Minneapolis. Wallace does a reading, a signing, an NPR appearance. Wallace gives in and imbibes titanic amounts of hotel television (what he calls an "orgy of spectatorship"). They fly back to Illinois, drive home, walk Wallace's dogs. Amid these everyday events, Wallace tells Lipsky remarkable things—everything he can about his life, how he feels, what he thinks, what terrifies and fascinates and confounds him—in the writing voice Lipsky had come to love. Lipsky took notes, stopped envying him, and came to feel about him—that grateful, awake feeling—the same way he felt about Infinite Jest. Then Lipsky heads to the airport, and Wallace goes to a dance at a Baptist church. A biography in five days, *Although Of Course You End Up Becoming Yourself* is David Foster Wallace as few experienced this great American writer. Told in his own words, here is Wallace's own story, and his astonishing, humane, alert way of looking at the world; here are stories of being a young writer—of being young generally—trying to knit together your ideas of who you should be and who other people expect you to be, and of being young in March of 1996. And of what it was like to be with and—as he tells it—what it was like to become David Foster Wallace. "If you can think of times in your life that you've treated people with extraordinary decency and love, and pure uninterested concern, just because they were valuable as human beings. The ability to do that with ourselves. To treat ourselves the way we would treat a really good, precious friend. Or a tiny child of ours that we absolutely loved more than life itself. And I think it's probably possible to achieve that. I think part of the job we're here for is to learn how to do it. I know that sounds a little pious." —David

Tony Millionaire, creator of Sock Monkey and one of America's most popular weekly comic strips, Maakies, delivers his first original graphic novel for Fantagraphics, *Billy Hazelnuts*. Billy Hazelnut transmutes nursery rhymes and the golem myth into a storybook about Becky, girl scientist, her friend Billy Hazelnuts (who was created from cooking ingredients by tailless mice), and their journey to find the missing moon while battling an evil steam-driven alligator with a seeing-eye skunk. Millionaire fuses the darker spirit of older fairy tales with an absurdist adventure story, throws gender politics into the mix, and brings it to life with his dementedly charming and meticulous drawing style that is utterly transporting.

*How to Create a High-Performance Culture* Pan Macmillan

In this powerful novel set in contemporary Kandahar, an Afghan woman approaches an American military base to demand the return of her brother's body. At a stark outpost in the Kandahar mountain range, a team of American soldiers watches a young Afghan woman approach. She has come to beg for the return of her brother's body. The camp's tense, claustrophobic atmosphere comes to a boil as the men argue about what to do next. Taking its cue from the Antigone myth, this significant, eloquent novel re-creates the chaos, intensity, and immediacy of war, and conveys the inevitable repercussions felt by the soldiers and their families--especially one sister.

A long-term study providing rare insights into the precarious career and ordinary working culture of professional footballers. Away from the celebrity-obsessed media gaze, the work of a professional footballer is rarely glamorous and for most players a career in football is insecure and short-lived. A former professional, Martin Roderick's familiarity with the world of football is the foundation for this privileged research into a world that is typically closed to the public gaze and ignored by media reportage and academic research which prefers to focus on a small, unrepresentative group of elite players. Key themes explored within the text include: the culture of work in professional football the changing identity, orientation and expectations of players during their careers the fragile and uncertain nature of professional sport careers the performance and dramatic aspects of a career under public scrutiny the role of relationships with managers, owners, support staff and partners players' responses to the insecurities inherent in professional football such as injury, ageing, performance and transfer. The text deals with a wide range of issues of interest to sports students and academics, particularly those with a focus on the sociology of sport but also including sport development, sport management and coaching studies. The text will also be of interest to researchers in the fields of careers, industrial relations and the sociology of work.
