Report of the Expert Group on Commonwealth Co-operation in Distance Education and Open Learning that proposes the creation of a University of the Commonwealth for co-operation in distance education, itself working closely with, and forging an effective partnership between, a wide variety of institutions through the Commonwealth. The Group shows not only how technologies could be harnessed on a Commonwealth-wide basis, but how teaching materials could be pooled and shared to become a Commonwealth-wide resource, freeing individual learners throughout the Commonwealth from the constraints of distance and the need to study at a present place or time.

Hong Kong Management and Labour argues, in a series of previously unpublished, completely up-to-date contributions, that economic and social change has been ongoing in Hong Kong for many years, and political change is perhaps less important for labour and management in the region. This book is written bearing in mind the concerns of policy makers and managers - particularly human resource managers, and those interested in labour relations, trade unions, labour markets and law, and comparative management.

Towards a Commonwealth of Learning Allyn & Bacon

By making explicit linkages both to social work practice and to the history of management thought, covering the rapidly expanding field of nonprofit studies, and incorporating management approaches from Henri Fayol's principles to Total Quality Management, this pioneering work grounds the practice of social administration in the profession of social work and agency-based practice better than any text presently available. The book also addresses ways in which the strategic vision of social administrators can be used to build humane and lasting welfare institutions, further social justice, and confront oppression. To accomplish this task, the authors blend several perspectives: social administration as management, as a form of social work practice emphasizing professional and community leadership, as decision making influenced by values and ethics and as institution building. Divided into an introduction, an afterword, and twenty-five topical chapters, Social Administration discusses issues of executive and program leadership as well as such environmental concerns as community, social agency, and a range of special

topics, including accountability, ethics, contracting, and working with boards.
