Eight years ago, Alice Steinbach, a Pulitzer Prize-winning columnist for the Baltimore Sun, decided to take a break from her life. She took a leave from job, friends, and family for a European journey of self-discovery, and her first book, *Without Reservations*, was the exquisite result. But once Steinbach had opened the door to a new way of living, she found herself unwilling to return to the old routine. She quit her job and left home again, only this time her objective was to find a way that would allow her, personally and professionally, to combine three of her greatest passions: learning, traveling, and writing. This funny and tender book is the result of her decision to roam around the world as an informal student, taking lessons and courses in such things as French cooking in Paris, Border collie training in Scotland, traditional Japanese arts in Kyoto, architecture and art in Havana. With warmth and wit, Steinbach guides us through the pleasures and perils of discovering how to be a student again. Along the way, she also learns the true value of this second chance at educating herself: the opportunity to connect with and learn from the people she meets on her journey.

NATIONAL BESTSELLER • A witty, charming, and engaging dive into trivia's colorful history, from America's highest-earning game

show contestant of all time “Insightful, informative, and written with a strong dose of humor and humility. . . . I loved this book.”—Will Shortz, crossword editor, *The New York Times* Ken Jennings is trivia’s undisputed king—and as he traces his rise from anonymous computer programmer to nerd folk icon, he explores his newly conquered kingdom: the world of trivia itself. Trivia, he has found, is centuries older than his childhood obsession with it. Whisking us from the coffeehouses of seventeenth-century London to the Internet age, Jennings chronicles the ups and downs of the trivia fad: the quiz book explosion of the Jazz Age; the rise, fall, and rise again of TV quiz shows; the nostalgic campus trivia of the 1960s; and the 1980s, when *Trivial Pursuit*® again made it fashionable to be a know-it-all. Jennings also investigates the shadowy demimonde of today’s trivia subculture, guiding us on a tour of trivia across America. He goes head-to-head with the blowhards and diehards of the college quiz-bowl circuit, the slightly soused faithful of the Boston pub trivia scene, and the raucous participants in the annual Q&A marathon in Stevens Point, Wisconsin, “The World’s Largest Trivia Contest.” And, of course, he takes us behind the scenes of his improbable 75-game run on *Jeopardy!* But above all, *Brainiac* is a love letter to the useless fact. (Who knew that there’s a crater on Venus named after Laura Ingalls Wilder? Ken Jennings, that’s who.) Engaging and erudite, *Brainiac* is an irresistible celebration of nostalgia, curiosity, and geeky obsession—in a word, trivia.

While working as a fur trapper in Labrador, Canada, Clarence Birdseye encountered an age-old problem: bad food and an unappealing, unhealthy diet. However, he observed that fresh vegetables wetted and left outside in the Arctic winds froze in a way that maintained their integrity after thawing. As a result, he developed his patented Birdseye freezing process and started the company that still bears his name. Birdseye forever changed the way we preserve, store, and distribute food, and the way we eat. Mark Kurlansky’s vibrant and affectionate narrative reveals Clarence Birdseye as a quintessential “can-do” American inventor—his other patents include an electric sunlamp, a

harpoon gun to tag finback whales, and an improved incandescent lightbulb—and shows how the greatest of changes can come from the simplest of ideas and the unlikeliest of places.
