An expert on Japanese social mores and business practices demonstrates the futility in applying Japanese principles to American business, basing his argument on social, corporate, cultural, and psychological grounds

**Sadists Of The Rising Sun** W. W. Norton & Company

Chasing the Rising Sun is the story of an American musical journey told by a prize-winning writer who traced one song in its many incarnations as it was carried across the world by some of the most famous singers of the twentieth century. Most people know the song "House of the Rising Sun" as 1960s rock by the British Invasion group the Animals, a ballad about a place in New Orleans -- a whorehouse or a prison or gambling joint that's been the ruin of many poor girls or boys. Bob Dylan did a version and Frijid Pink cut a hard-rocking rendition. But that barely scratches the surface; few songs have traveled a journey as intricate as "House of the Rising Sun." The rise of the song in this

country and the launch of its world travels can be traced to Georgia Turner, a poor, sixteen-year-old daughter of a miner living in Middlesboro, Kentucky, in 1937 when the young folk-music collector Alan Lomax, on a trip collecting field recordings, captured her voice singing "The Rising Sun Blues." Lomax deposited the song in the Library of Congress and included it in the 1941 book *Our Singing Country*. In short order, Woody Guthrie, Pete Seeger, Lead Belly, and Josh White learned the song and each recorded it. From there it began to move to the planet's farthest corners. Today, hundreds of artists have recorded "House of the Rising Sun," and it can be heard in the most diverse of places -- Chinese karaoke bars, Gatorade ads, and as a ring tone on cell phones. Anthony began his search in New Orleans, where he met Eric Burdon of the Animals. He traveled to the Appalachians -- to eastern Kentucky, eastern Tennessee, and western North Carolina -- to scour the mountains for the song's beginnings. He found Homer Callahan, who learned it in the mountains during a corn shucking; he discovered connections to Clarence "Tom" Ashley, who traveled as a performer in a 1920s medicine show. He went to Daisy, Kentucky, to visit the

family of the late high-lonesome singer Roscoe Holcomb, and finally back to Bourbon Street to see if there really was a House of the Rising Sun. He interviewed scores of singers who performed the song. Through his own journey he discovered how American traditions survived and prospered -- and how a piece of culture moves through the modern world, propelled by technology and globalization and recorded sound.

That They May Face the Rising Sun was the last novel from John McGahern, one of Ireland's greatest novelists. Joe and Kate Rutledge have come to Ireland from London in search of a different life. In passages of beauty and truth, the drama of a year in their lives and those of the memorable characters that move about them unfolds through the action, the rituals of work, religious observances and play. We are introduced, with deceptive simplicity, to a complete representation of existence - an enclosed world has been transformed into an Everywhere.

**Under the Rising Sun** CreateSpace  
The harrowing true story of the Scottish battalion that spent over three years in Japanese captivity during World War II. Posted to Singapore in 1937 with their families, the members of the 2nd Battalion, Gordon Highlanders found themselves fighting bravely when the Japanese invaded Malaya in December 1941. But by mid-February came the surrender of Singapore, and those who were not killed became POWs. After initial incarceration in Singapore, the Gordons were dispersed to work on the famous Thai-Burma railway, in the mines of Taiwan and Japan, and on other slave labor projects. The conditions they

existed under defy modern comprehension. Others died trapped in hell-ships torpedoed by allied submarines. Of the thousand men involved initially, over four hundred had died before liberation in summer 1945. Despite their diverse backgrounds, all the men had been bound by close regimental spirit, and all suffered hard labor, starvation, brutality, and tropical diseases. Rank was no protection from death. The author of this history has researched the plight of these extraordinary men, so many of whom never saw their native Scotland again. Despite the grim conditions, he captures the strong collective regimental spirit and the humor and cooperation that saved so many who would otherwise have perished. This is an inspiring tale of courage and survival against appalling odds.

The powerful and riveting new book in the multimillion-selling Killing series by Bill O'Reilly and Martin Dugard Autumn 1944. World War II is nearly over in Europe but is escalating in the Pacific, where American soldiers face an opponent who will go to any length to avoid defeat. The Japanese army follows the samurai code of Bushido, stipulating that surrender is a form of dishonor. Killing the Rising Sun takes readers to the bloody tropical-island battlefields of Peleliu and Iwo Jima and to the embattled Philippines, where General Douglas MacArthur has made a triumphant return and is plotting a full-scale invasion of Japan. Across the globe in Los Alamos, New Mexico, Dr. J. Robert Oppenheimer and his team of scientists are preparing to test the deadliest weapon known to mankind. In Washington, DC, FDR dies in office and Harry Truman ascends to the presidency, only to face the most important political decision in history: whether to use that weapon. And in Tokyo, Emperor Hirohito, who is considered a deity by his subjects, refuses to surrender, despite a massive and mounting death toll. Told in the same page-turning style of Killing Lincoln, Killing Kennedy, Killing Jesus, Killing Patton, and Killing Reagan, this epic saga details the final moments of World War II like never before.

Campfire's World War II: Against The Rising Sun focuses on the war in the East, through the eyes of the servicemen and civilians on both sides of the conflict. From the invasion of Manchuria by Japan in 1937, right through to the dropping of the atomic bombs on Hiroshima and Nagasaki, we witness the end of the British Empire, the rise and fall of Japan and destruction the likes of which the world must never know again. While authoritative texts on World War Two often tend to focus disproportionately on the European theater of war, the Pacific theater was no less dramatic, with its roots stretching back to the early 1930s. This book tells the history of World War Two in the Pacific theater, told from many perspectives.

Written in Irv Yalom's inimitable storytelling style, Staring at the Sun is a profoundly encouraging approach to the universal issue of mortality. In this magisterial opus, capping a lifetime of work and personal experience, Dr. Yalom helps us recognize that the fear of death is at the heart of much of our anxiety. Such recognition is often catalyzed by an

"awakening experience"—a dream, or loss (the death of a loved one, divorce, loss of a job or home), illness, trauma, or aging. Once we confront our own mortality, Dr. Yalom writes, we are inspired to rearrange our priorities, communicate more deeply with those we love, appreciate more keenly the beauty of life, and increase our willingness to take the risks necessary for personal fulfillment.

Despite its brief life, the Imperial Navy rapidly achieved the status of the world's third greatest navy, and in its last years almost won an even higher position - but instead, in the final contest, lost everything -- [Pref.].
