The Resonance of Unseen Things Simon and Schuster

The Classic Case of Alien Abduction Rereleased with a New Afterword for a New Generation The Andreasson Affair is more than just a classic example of a close encounter. It is—to use the jargon of ufologists—a case of such “high strangeness” that even the most open-minded investigators were at first inclined to dismiss it out of hand. Yet it has become probably the best documented case of its kind to date, the subject of an intensive 12-month investigation conducted for the Center for UFO Studies (CUFOS) that involved, among other things, the recording of large quantities of testimony given under hypnosis, extensive lie detector testing of witnesses, detailed analysis of corroborative circumstantial evidence, exhaustive comparison with other such accounts, and much more. The Andreasson Affair includes: The most detailed description of any UFO abduction experience. Betty’s precise drawings of her experience. A supporting foreword to the book by astronomer Dr. J. Allen Hynek. Verification of all events associated with Betty’s experience.

The Trickster and the Paranormal Dundurn

Paranormal and supernatural events have been reported for millennia. They have fostered history’s most important cultural transformations (e.g., via the miracles of Moses, Jesus, Mohammed). Paranormal phenomena are frequently portrayed in the world’s greatest art and literature, as well as in popular TV shows and movies. Most adults in the U.S. believe in them. Yet they have a marginal place in modern culture. No university departments are devoted to studying psychic phenomena. In fact, a panoply of scientists now aggressively denounces them. These facts present a deeply puzzling situation. But they become coherent after pondering the trickster figure, an archaic being found worldwide in mythology and folklore. The trickster governs paradox and the irrational, but his messages are concealed. This book draws upon theories of the trickster from anthropology, folklore, sociology, semiotics, and literary criticism. It examines psychic phenomena and UFOs and explains why they are so problematical for science.

Missing Time Macmillan

Presents an investigation of the claims presented in "Communion," Whitley Strieber's account of an extraterrestrial abduction, discussing the significance of this event, and other "visitor" experiences

Intruders Granite Pub Llc

Some say they have been abducted and subjected to terrifying physical examinations. Others claim

that young children have been kidnapped and returned only after the removal of flesh samples. Still others allege that women have been kidnapped and impregnated, the unborn children later removed for a vast cross-breeding experiment. These crimes against humanity are not perpetuated by an international terrorist organization. The "abductees" assert that they have been kidnapped by extraterrestrial beings. UFO abduction claims have spawned a veritable cottage industry, providing the fodder for an explosion of magazine articles, television interviews, newspaper features, bestselling books, and movies. Somewhere beyond all the tumult lies the truth. Dedicated to "those who will needlessly bear mental scars because of the foolish fantasies of a few," UFO Abductions lifts the shroud of mystery from the invisible epidemic of UFO abduction claims. Philip J. Klass, an internationally recognized skeptical authority on the subject of UFO reports, traces the history of these claims, from the celebrated Betty and Barney Hill case in 1966 to the extraordinary tales which are surfacing today. His response to these claims and the answers he provides are both absorbing and factual - a fascinating glimpse into an American subculture obsessed with visitors from outer space.

John Mack explored alien encounter experiences deeply, revealing a world of meaning and power that can revolutionize our understanding of who we are and our place in the cosmos. Dr. Mack suggests that such experiences reveal to us a universe which is filled with intelligence and life, though this may not always take the densely embodied form with which we are most familiar. This book brings us to the edge of material reality and beyond, shattering the boundary that has separated matter and spirit and scientific or spiritual ways of knowing. Dr. Mack asks us to move

beyond the largely useless debate about whether UFOs or abductions are real in a purely material sense. He shows us the limited way that we have used ourselves in learning about the cosmos, and challenges the limitations of traditional science as a way to learn about the multi-dimensional world in which we reside. Insights about the relationship between spiritual and physical energy; trauma's role in transformation; information about the ecological crisis facing the planet and the urgency that we do something about it; the possibility that human beings are participating in the creation of some sort of interdimensional hybrid race; the expansion of human consciousness and our spiritual reawakening; and the apparent evolution of extraordinary relationships that some human beings may be developing beyond the earth plane - these are the matters this book includes. Dr. Mack demonstrates that the investigations of a skilled clinician, exploring human consciousness through in-depth conversations, can reveal to us a multidimensional, apparently intelligent, cosmos whose nature is fundamentally consistent with the discoveries of leading scientists who have been gaining knowledge primarily through exploring the physical world.

Extraordinary Contact Wildflower Press

After fifty years of widespread speculation about UFOs and abductions by aliens, a distinguished historian and UFO researcher presents the first evidence-based explanation of alien intentions. Based on over thirty years of personal research, Professor Jacobs exposes the aliens' profoundly alarming agenda: to create a breed of alien-human 'hybrids' who will eventually colonise - and control - Earth. He explains why aliens are here, what they want and why their agenda has been kept secret. In doing so he presents a disturbing picture of a profoundly changed future in which humans will be relegated to inferior status. This incredible story is all the more remarkable because every account of an alien abduction is thoroughly documented and is corroborated by independent testimony. This book answers in astonishing depth some of the most important questions about the UFO phenomenon that researchers have been asking since the beginning of the controversy.

Witnessed Dell

The arrival of extraterrestrial visitors is one of the most momentous events of our time. In *Intruders* Budd Hopkins explored the shocking truth about the contact between earthling and alien: that human beings are temporarily abducted and taken aboard UFOs. But Hopkins could not have told the stories of those victims without first having discovered the one experience common to all who report alien encounters -- the phenomenon known as "missing time." Missing time tells how the people who have experienced abductions retained no memory of them -- all traces of the trauma were effectively erased from their memory. Yet, under hypnosis, many abductees were able to recall in vivid, convincing detail, the harrowing experiments that left mysterious scars on their bodies, the eerie interiors of UFOs where they were held captive, and the astonishing faces of their alien hosts. The stories of seven victims of these otherworldly intruders are told here -- in detail at once dispassionate and dramatic, fully supported by scientific documentation. They are stories that could belong to anyone: your neighbors, your loved ones, even you.

Since 1988, Jim Sparks has been working with intelligent, non-human beings from off-planet locations. Unlike any other abductees, he has conscious awareness of his experiences with approximately 95 percent clear recall of technology, including time travel, invisibility, multidimensionality, and manipulation of gravity and electromagnetic fields. His firsthand reports of sperm extraction, breeding programs, shape-shifting, and thought-activated transport are astonishing, as is his personal journey from anger at the invasion to gratitude for the opportunity to be a part of saving the Earth from self-destruction. After a 1996 mass abduction, Jim was initiated as a participant, rather than as an unwilling abductee. It became clear to him that some ETs have become very concerned about their investment in planet Earth. He was given a message: "Your planet is dying". He was told to instruct humanity to: restore the Earth's ecological balance, grant amnesty to those who have suppressed the truth about the long-term alien presence on Earth, and bring forth all the concealed knowledge and technologies that extraterrestrial visitors have given to humans. He is an ambassador for human cosmic awareness and a voice for the ridiculed and dismissed people who have been contacted by alien civilisations

In *Secret Life*, Professor David M. Jacobs of Temple University takes us into the private world of those abducted by aliens, letting them describe in their own words what it is like to be abducted. Based on interviews with sixty individuals and more than 300 independently corroborated accounts, *Secret Life* presents the most complete and accurate picture of alien abductions ever compiled. Dr. Jacobs takes the reader on a minute-by-minute journey through a typical abduction experience and describes in detail the bizarre physical, mental and reproductive procedures that abductees claim have been administered by small alien beings. Jacobs draws from these interviews a profoundly unsettling reason behind the abductions: aliens are conducting a complex reproductive experiment involving the conception, gestation, or incubation of human and alien hybrid beings.

The Wolfen Simon and Schuster

Close Encounters of the Fourth Kind: cases in which personal contact between an individual or individuals is initiated by the "occupants" of the spacecraft. Such contact may involve the

transportation of the individual from his or her terrestrial surroundings into the spacecraft, where the individual is communicated with and/or subjected to an examination before being returned. One might expect that a “scientific conference” devoted to people who have reported being kidnapped by “little green men” would be dismissed out of hand. But C.D.B. Bryan, the greatly admired journalist and author of *Friendly Fire*, did not dismiss it: the conference was to be held at the Massachusetts Institute of Technology and would have as its chairmen a Pulitzer Prize-winning Harvard psychiatry professor and a professor of physics from M.I.T. Bryan attended the conference throughout its five days. He approached the subject with no prior stand, no agenda, and an open (if slightly skeptical) mind. As the conference progressed, he was astonished by the quality of the stories told by the hundreds of men and women who came forward hesitantly and reluctantly with their utterly amazing—and utterly convincing—accounts of having been abducted and then examined aboard extraterrestrial spacecraft by spindly limbed, telepathic gray creatures with outsized foreheads dominated by huge, compelling, tear-shaped black eyes. What most astonished Bryan were the similarities found again and again in these accounts and the consistency of their details. It is here that the heart of the mystery lies: as the Harvard professor John E. Mack asked at the conference, “If what the abductees are saying isn’t happening to them, then what is?” This question—and the possible answers—are at the center of this richly explicit, serious, and riveting book. Bryan recreates the conference. He interviews ufology’s most prominent psychiatrists, psychologists, hypnotherapists, researchers, physicists, physicians, and folklorists. He interweaves throughout the testimony of the abductees themselves, who tell us their stories in chilling detail. He presents, in depth, the Close Encounter experiences of two women whose stories he tells on the basis of both their spontaneous recollections of the events and their memories that were retrieved through sessions of hypnosis of which Bryan himself was a witness. Finally, Bryan examines the current theories—psychological, psychiatric, medical, parapsychological—that have been put forward by the unconvinced to explain the abduction phenomenon. Are the abductees suffering from some sort of false memory syndrome? . . . a multiple or dissociative personality disorder? . . . Are they fantasy-prone? *Close Encounters of the Fourth Kind* is a detailed, objective exploration—the most concrete to date—of one of the enduring and amazing mysteries of our time. It is a book that will equally fascinate believers and nonbelievers.

Debra Jordan-Kauble is an “ordinary” woman with a habit of attracting the extraordinary. After reporting a terrifying anomalous experience to Budd Hopkins-pioneering researcher of alien abduction phenomena-Debra's life takes a dramatic turn as she becomes the central figure in Hopkins' best-selling book, *Intruders*, and in its popular TV adaptation. But while the TV series ended with a clear resolution, Debra's astonishing story continued in real life. In *Extraordinary Contact*, Debra shares with the reader her close-up and personal experiences with UFOs, poltergeists, the afterlife, Electronic Voice Phenomena, premonitions, synchronicities, and non-human entities. Such phenomena are woven throughout the vivid tapestry of Debra's life-flourishes of the anomalous, offset against an everyday backdrop of factory work, family and friends. Spanning four decades, *Extraordinary Contact* is a story of resilience and growth in the face of trauma, tragedy and loss, and an intimate, first-person account of what it means to be a lifelong experiencer of “impossible” phenomena.

Passport to the Cosmos August Night Press

Although often dismissed as the stuff of tabloids, there are those who maintain that alien abduction is a real danger that many on Earth have already faced. In this volume, two dedicated UFO researchers partner up to present the mysterious alien encounters experienced by their families and others like them, pointing to gaps in government reporting and highlighting as yet unexplained phenomena related to their experiences. The authors encourage readers to keep an open mind as they seek to dispel the skepticism and stigma surrounding the reporting of such incidences while encouraging others to share their stories.

The Allagash Abductions Simon and Schuster

In 1951, a young boy in rural Georgia was visited and abducted by group of alien visitors from an unknown dimension. That contact continued over several decades and resulted in the birth of more than sixty hybrid children... and one of the most remarkable stories in all of UFO lore. *LOVE IN AN ALIEN PURGATORY* is the startling pictorial account of David Huggins' hidden life, as revealed in his own vivid and sometimes disturbing full-color paintings. With commentary and text by UFO investigator Farah Yurdozu, David's story takes the reader into a world between two dimensions: a purgatory of hope, sex, fear and, ultimately, love.
