Human-Animal Medicine is an innovative reference exploring the unprecedented convergence of human, animal, and environmental health, triggering global pandemics and requiring new clinical paradigms. The "One Health" approach calls for greater communication and cooperation between human health care providers, public health professionals, and veterinarians to better address vital issues of emerging diseases and environmental change. This incredibly timely book provides, for the first time,

practical guidelines for "One Health" collaborations in a wide range of clinical human-animal health issues, including the H1N1 virus, zoonotic diseases, the human-animal bond, animal allergy, bites and stings, and animals as "sentinels" for toxic environmental health hazards. UNIQUE! For each condition, specific steps human health care providers, veterinarians, and public health professionals must take to prevent and manage disease. UNIQUE! Comparative tables of disease signs, diagnosis and treatment in humans and animals for easy reference. UNIQUE! Guidelines to detect and improve environmental factors affecting the health of humans and animals. Occupational health guidelines for preventive care of animal workers

including veterinary personnel, farmers, pet store employees, and zoo workers. Treatment of emerging disease issues including zoonoses, H1N1 virus, harmful algae blooms, and animal-related pesticides UNIQUE! Sample protocols facilitate professional communication between veterinarians, human health clinicians, and public health professionals. Legal and ethical aspects of "One Health" that human health providers and veterinarians need to know.

For more than 15 years, The Academic Job Search Handbook has assisted job seekers in all academic disciplines in their search for faculty positions. The guide includes information on aspects of

the search that are common to all levels, with invaluable tips for those seeking their first or second faculty position. This new edition provides updated advice and addresses hot topics in the competitive job market of today, including the challenges faced by dual-career couples, job search issues for pregnant candidates, and advice on how to deal with gaps in a CV. The chapter on alternatives to academic jobs has been expanded, and sample resumes from individuals seeking nonfaculty positions are included. The book begins with an overview of the hiring process and a timetable for applying for academic positions. It then gives detailed information on application materials, interviewing, negotiating job offers, and starting the new job. Guidance

throughout is aimed at all candidates, with frequent reference to the specifics of job searches in scientific and technical fields as well as those in the humanities and social sciences. Advice on seeking postdoctoral opportunities is also included. Perhaps the most significant contribution is the inclusion of sample vitas. The Academic Job Search Handbook describes the organization and content of the vita and includes samples from a variety of fields. In addition to CVs and research statements, new in this edition are a sample interview itinerary, a teaching portfolio, and a sample offer letter. The job search correspondence section has also been updated, and there is current information on Internet search methods and useful websites.
