In 1985, Charles Ng and Leonard Lake were spotted shoplifting. Ng escaped, but Lake's capture led police to a concrete bunker in the Sierra Nevada foothills, where they discovered the grisly evidence of an orgy of sex crimes, torture and murder that claimed at least sixteen victims. Lake committed suicide: Ng fled to Canada, where he was tracked down and extradited to California. This 14-year, \$10 million legal case was the costliest and longest criminal prosecution in California history.

The prostitutes working New York City's Times Square were more than a little bit nervous. A deranged serial killer who apparently melted into the crowd was

picking up hookers and sadistically torturing them, leaving some girls wondering if there was a real-life Dr. Frankenstein out there attempting to create his own personal plaything from pieces of his dismembered victims. Some working girls were butchered in seedy hotel rooms, their heads, hands or breasts sliced off, their remains then set ablaze in an effort to dispose of any incriminating evidence. Others narrowly escaped death, but only after enduring hours of terrifying torture that included brutal bite marks, surface knife slashes and stab wounds that all served as bloody foreplay for frenzied sexual assaults. Survivors were found bleeding and delirious, unable to remember much due to the cocktail of drugs they'd been given by their assailant. But their bodies told a horrific story that was almost worse than death, and the sadistic calling cards left by the serial killer would eventually tie together victims in this true crime murder spree that crossed two states. It wasn't until one victim's screams grew loud enough that Richard Cottingham, an American serial killer who was part narcissist, part sadist and all evil, was finally caught by police as he fled his hotel room carrying his bag of torture devices. His capture allowed them to close the books on some of the most horrific murder cases in U.S. history. This serial killer biography not only unearths Cottingham's sick, twisted crime spree, it also delves into the murderer's psyche, attempting to reveal why an insurance company IT guy's seemingly normal life would devolve into madness. Among true crime stories, Richard Cottingham's is particularly brutal, and will likely make you look twice at your own coworkers, and wonder what sick secrets they might be keeping.

In the 1970s and early '80s, southern California was shocked when dead boys began turning up with disturbing regularity alongside some of the picturesque state's most heavily traveled freeways. Victims of sadistic torture, the dead boys and young men had been raped and strangled, and their untimely deaths were eventually attributed to the Freeway Killer, an elusive psychopath whose trail of death would go down in California history as one of the worst true crime stories in the country. While the Freeway Killer ultimately turned out to be three different men, one of them was truck driver William Bonin, one of the most prolific and sadistic among American serial killers. Bonin usually preferred to work with an accomplice, and the lust killer and his cronies brutally raped and tortured his victims - Bonin loved the sounds of their screams - before strangling them and dumping them on the side of the road like garbage. Bonin confessed to committing 21 murders in the span of just a year, although many experts believe he was responsible for the deaths of many more missing young men. He was executed in 1996, and in this detailed serial killer biography, you'll learn the background that might offer some understanding of what makes a man go off the rails and become a deranged lust killer. Of course, spine-tingling story of a man whose youngest victim was a 12-year-old who was waiting for a bus to take him to Disneyland might be one that causes you to sleep with the lights on for weeks after turning the final gruesome page.

Two Faces of a Serial Rapist is a true-crime story of shattered dreams, passions, violence, extreme fear, explicit sexual assaults, a sexual predator, and the anatomy of DNA profiling. After three years of burglaries, sexual assaults, and rapes of women in apartments within a few miles of the "Big Chicken", a local landmark restaurant in Marietta, a "John Doe" suspect is arrested. A masked serial rapist would silently enter apartments of women while asleep, and demand, "Don't scream, I won't hurt you, I'll be here only a minute and I'll be gone." At times, the predator would have erectile dysfunction, and once a victim actually fought him off receiving a knife wound ... but could this suspect be the most unlikely serial predator? Terry Greenway was honorably known in his community to be a pillar of the Church, a good citizen with two jobs, a wife and three teen-age sons. In 1992, Greenway was put on trial for 14 felony charges of Rape, Sexual Assaults, and related offenses. Would the new scientific technology of genetics profiling of an individual through testing of the suspect's DNA against the DNA from the cold-case rape kits of victims implicate this family

man, whose church members and employers came to his aid in his hour of need? Would victims be required to testify to the most detailed and humiliating personal invasions of their lives and privacy, by using explicit verbal testimony, in their own words? Were the cold cases solved, and a serial rapist taken off the streets? Would this hardworking family man with two jobs, devoted to his church and family, be the masked intruder who, for years, broke into apartments and terrorized women alone at night. The evidence is presented. You be the judge. The author reveals, 20 years later, through interviews of the victims, how their lives have been shattered by their victimization, how they have dealt with their recovery, their continuing fear, and their prospects for the future. Likewise, a personal and unusual interview of the serial rapist revealed his explanations of the past and contemplations for the future, regarding himself, his wife, and family.

California has spawned some of America's most notorious serial killers--The "Grim Sleeper" Lonnie Franklin Junior, the "Night Stalker" Richard Ramirez, and Randy Kraft are just three of the Golden State's most notable--which has brought the state some unwanted and some would say unwarranted attention. For its part, California is the most populous state in the U.S., so it would stand to reason that it would have more than its fair share of serial killers. But the state does seem to breed its own special blend of sociopaths. Far from the glitz and glamour of Los Angeles or the scenic backdrops of the Bay Area, two men embarked on a vicious campaign in California's Central Valley that left at least twenty people dead. The two men--Wesley Shermantine and Loren Herzog--became collectively known by law enforcement as the "Speed Freak Killers" because the duo were almost always under the influence of the drug crystal methamphetamine when they committed several strings of murders during the 1980s and '90s. "How that man was able to go out to that storage shed, time after time, and bury one more dead boy is something I'll never understand. You get close to evil like that, no matter how long ago it was, and it never leaves you." Detective David Mullican, recollecting the Houston Mass Murders, April 2011 During the early 1970s, more than three dozen teenage boys went missing from the working-class neighborhood of Houston Heights, in the south of Texas. The parents of a number of these boys received strange postcards from their sons, telling them that they were fine and that they had found jobs somewhere else in the state, anywhere from Dallas to Austin. Then, in August 1973, the Houston Police Department made a shocking discovery; something that would later become known as the Houston Mass Murders. After further spine-

chilling investigations, the police found that prior to the murders, in the late 1960s, a young man by the name of Dean Corll had been handing out free candy to teenagers in Houston Heights. This man - who was vice-president of his mother's candy company - was described by fellow residents as gentle, friendly and well-mannered. They couldn't have been more wrong... The Candy Cards is the shocking true story of Dean Corll, a.k.a. The Candy Man, one of the deadliest serial killers in American history. Robert Browns thrilling account of this chilling story will have readers draw into to this story as much as any page turning crime thriller. There have been iconic moments in the action movie genre over the years, but nothing has come close to matching the kinetic, balletic gun-fu of the John Wick films. In *They Shouldn't Have Killed His Dog: The Complete Uncensored Ass-Kicking Oral History of John Wick, Gun-Fu and The New Age of Action*, bestselling

authors Mark A. Altman and Edward Gross take you behind the scenes of a franchise that includes three films with more on the way, while exploring the action classics that led to John Wick as well as the films it inspired, like *Atomic Blonde*. "Terrific. You might come for the mystery, but you will stay for the sheer energy."-- New York Times Book Review An utterly delicious debut thriller that tells the story of the most likable murderess you will ever meet, perfect for fans of Riley Sager and Jessica Knoll. "I could just kill you right now!" It's something we've all thought at one time or another. But Ruby has actually acted on it. Three times, to be exact. Though she may be a murderer, Ruby is not a sociopath. She is an animal-loving therapist with a thriving practice. She's felt empathy and sympathy. She's had long-lasting friendships and relationships, and has a husband, Jason, whom she adores. But the homicide detectives at Miami Beach PD are not convinced of her happy marriage. When we meet Ruby, she is in a police interrogation room, being accused of Jason's murder. Which, ironically, is one murder that she did not commit, though a scandal-obsessed public believes differently. As she undergoes questioning, Ruby's mind races back to all the details of her life that led her to this exact moment, and to the three dead bodies in her wake. Because though she may not have killed her husband, Ruby certainly isn't innocent. Alternating between Ruby's memories of her past crimes and her present-day fight to clear her name, *Blood Sugar* is a twisty, clever debut with an unforgettable protagonist who you can't help but root for—an addicting mixture of sour and sweet.

For four centuries, New England has been

a cradle of crime and murder—from the Salem witch trials to the modern-day mafia. Nineteenth century New England was the hunting ground of five female serial killers: Jane Toppan, Lydia Sherman, Nellie Webb, Harriet E. Nason, and Sarah Jane Robinson. Female killers are often portrayed as caricatures: Black Widows, Angels of Death, or Femme Fatales. But the real stories of these women are much more complex. In *Pretty Evil New England*, true crime author Sue Coletta tells the story of these five women, from broken childhoods, to first brushes with death, and she examines the overwhelming urges that propelled these women to take the lives of a combined total of more than one-hundred innocent victims. The murders, investigations, trials, and ultimate verdicts will stun and surprise readers as they live vicariously through the killers and the would-be victims that lived to tell their stories.

While some would say that American serial killer Cary Stayner was influenced by family tragedy - his already-troubled family was shattered when his brother was abducted for seven years and held as a sex slave before his heroic return inspired the miniseries "I Know My First Name Is Steven" - in reality, Cary Stayner's true crime story is much more ominous. The handsome, outdoorsy guy with a love for marijuana, nude beaches and the Sierra Nevada mountain range where he once spotted Bigfoot had been harboring fantasies of brutally killing women years before his brother's abduction turned the Stayner family upside down. And in the annals of historical serial killers, Stayner's story stands out, because for months he made one of the most beautiful places on earth a nightmare for women when California's majestic Yosemite National Park became his own devil's playground, and he finally found himself unable to control his long-suppressed urges. Because he didn't look menacing, the man one FBI agent compared to actor Tom Laughlin in "Billy Jack" was able to gain the trust of his victims, and three vacationing women who were staying at the lodge where he lived and worked during the busy tourist season and a nature-loving teacher who help kids become stewards of the land she loved made that fatal mistake before they were savagely, sadistically murdered. The biography of serial killer Cary Stayner and his psychopathic crime spree leaves spine-tingling chills, because as far as the outside world was concerned, he was a fairly normal guy who found himself uncontrollably compelled to kill. Stayner

has been on death row in California's famed San Quentin for more than 10 years, but for the families of his victims, no punishment is just enough to make up for the vibrant lives Stayner took, making him one of the most depraved American serial killers in contemporary history. [No Kill No Thrill](#) Sourcebooks, Inc. 2021 Listeners' Choice British Podcast Awards Winner What is it about killers, cult leaders, cannibals, cults, and criminals that capture our imaginations even as they terrify and disturb us? rejects the narrative of killers as monsters and that a victim "was in the wrong place at the wrong time," and instead tells the stories we want to hear in a way that challenges perceptions and asks the hard questions about society, gender, poverty, culture, and even our politics. After meeting at a party in London where they both discovered they listened to the same murder podcasts, Hannah Maguire and Suruthi Bala drunkenly promised to one day start their own true crime podcast together and the rest is history. From the hosts of the hit true crime podcast RedHanded (dubbed by Rick & Morty

creator Dan Harmon as the "best true crime podcast I've heard, ever"), Hannah Maguire and Suruthi Bala have amassed a cult following of "spooky bitches" amounting to an incredibly strong 63k downloads per episode and 728k backlist downloads every month in the US alone. With candor, humor, interviews with experts, research on real-life cases, and an unflinching dissection of what makes a killer tick, Bala and Maguire take us through the societal, behavioral, and cultural phenomena that make victims -- and their murderers -- our collective responsibility and to find out once and for all: what makes a killer tick?
