The Word Biblical Commentary delivers the best in biblical scholarship, from the leading scholars of our day who share a commitment to Scripture as divine revelation. This series emphasizes a thorough analysis of textual, linguistic, structural, and theological evidence. The result is judicious and balanced insight into the meanings of the text in the framework of biblical theology. These widely acclaimed commentaries serve as exceptional resources for the professional theologian and instructor, the seminary or university student, the working minister, and everyone concerned with building theological understanding from a solid base of biblical scholarship. Overview of Commentary Organization Introduction—covers issues pertaining to the whole book, including context, date, authorship, composition, interpretive issues, purpose, and theology. Each section of the commentary includes: Pericope Bibliography—a helpful resource containing the most important works that pertain to each particular pericope. Translation—the author’s own translation of the biblical text, reflecting the end result of exegesis and attending to Hebrew and Greek idiomatic usage of words, phrases, and tenses, yet in reasonably good English. Notes—the author’s notes to the translation that address any textual variants, grammatical forms, syntactical constructions, basic meanings of words, and problems of translation. Form/Structure/Setting—a discussion of redaction, genre, sources, and tradition as they concern the origin of the pericope, its canonical form, and its relation to the biblical and extra-biblical contexts in order to illuminate the structure and character of the pericope. Rhetorical or compositional features important to understanding the passage are also introduced here. Comment—verse-by-verse interpretation of the text and dialogue

with other interpreters, engaging with current opinion and scholarly research. Explanation—brings together all the results of the discussion in previous sections to expose the meaning and intention of the text at several levels: (1) within the context of the book itself; (2) its meaning in the OT or NT; (3) its place in the entire canon; (4) theological relevance to broader OT or NT issues. General Bibliography—occurring at the end of each volume, this extensive bibliography contains all sources used anywhere in the commentary.

Structure and Style, first published in 1962 and expanded in 1979, fills the need for new ways of analysis that put 20th-century music in perspective. It spans forms in use before 1600 through forms and techniques in use today. Anthology of Musical Forms provides musical examples of forms treated in Structure and Style. Some examples are analyzed throughout. Most are left for the student to analyze. These books reflect Leon Stein's impressive background as student, musician, and composer. Stein studied composition with Leo Sowerby, Frederick Stock (conductor of the Chicago Symphony) and orchestration with Eric DeLamarter, his assistant. He earned M. Mus and Ph.D degrees at DePaul University and was associated with its School of Music as director of the Graduate Division and chairman of the Department of Theory and Composition until his retirement in 1976. He has composed a wide variety of works, including compositions for orchestra, chamber combinations, two operas, and a violin concerto.

Librarians and teachers will find multiple purposes for this expertly-compiled resource, which can be employed in much the same way as a standard bibliography. Educators will appreciate the concise annotations, arranged alphabetically by author, that form the core of this work. Insightful critical statements synthesize plot summaries and identify the thematic content of each short story. A theme guide utilizes the nearly 100 theme headings matching those at the start of each entry, allowing the user to quickly locate story titles on related themes and construct reading lists based on individual interests and needs. Another component designed to aid librarians offers one bibliography that lists the anthologies from which the stories are drawn (Works Cited) and one comprised of a number of recent anthologies that can be adapted for the classroom (Further Reading). In addition to the theme index, the general subject and author indexes make this a user-friendly and invaluable resource.

Explores the intricately crafted rhetorical strategies used by al-Jahiz in his letters The 9th-century essayist, theologian and encyclopedist 'Amr b. Bahr al-Jahiz has long been acknowledged as a master of early Arabic prose writing. Many of his most engaging writings were clearly intended for a broad readership but were presented as letters to individuals. Despite the importance and quantity of these letters, surprisingly little academic notice has been paid to them. Now, Thomas Hefter takes a new approach in interpreting some of al-Jahiz's 'epistolary monographs'. By focusing on the varying ways in which he wrote to the addressee, Hefter shows how al-Jahiz shaped his conversations on the page in order to guide (or manipulate) his actual readers and encourage them to engage with his complex materials.

Why the Torah Begins with the Letter Beit IGI Global SHAW 16 contains twenty-nine unpublished pieces by Shaw written between 1877 and 1950. The most significant is a ten-page draft synopsis of Man and Superman (the original manuscript draft of the play has been lost) in a contemplated five-act version, providing scholars with a hitherto unavailable ur-text. Equally important for the biographical and artistic insights they offer are the early literary efforts found in Shaw's first opus notebook, including an extended narrative-verse fragment of 1877 set in Dublin; a polemic (his first) on oakum picking and prison conditions; a criticism of organists and orchestral conductors; and an attempted evaluation of contemporary arts and letters in 1878. We find Shaw, through the persona of a female narrator, creating in his own image a fictional memoir of the young Hector Berlioz; offering an ironic vindication of housebreakers (in anticipation of Heartbreak House); exploring the seamy side of the prizefight ring; examining "exhausted" genres of Victorian art in 1880; defining the "true signification of the term Gentleman"; lecturing on Socialism and the family and on realism as the goal of fiction; and penetratingly considering the future of marriage in a rejected book review, one of four included in the volume. The dimensions of Shaw's political views may be examined through nearly a dozen commentaries on politics and on war and peace, ranging from the Boer War (an 1899 draft letter to the press, "Why Not Abolish the Soldier?") and 1903 municipal elections to U.S. Liberty Loans, the Italo-Abyssinian War, "how to talk intelligently" about the Second World War, and the implications of the hydrogen bomb in the nuclear age. For good measure, the volume concludes with two brief playlets, previously unrecorded. The editors have arranged these pieces individually or grouped by theme and genre as near to chronological order as possible, and the reader is brought closer to the original manuscripts by the retention of Shaw's

stylistic and spelling inconsistencies, and by transliteration of the shorthand notations he frequently inserted between lines or in the margins. Each text is supplemented by an editorial note providing its provenance and a detailed physical description of the manuscript.

As critical thinking and coherent argument become even more important in our contemporary world, *Arguing about Literature* economically combines two first-year writing books in one: a concise guide to reading literature and writing arguments, and a compact thematic anthology of stories, poems, plays, essays, and arguments for inquiry, analysis, and research. The authors of the groundbreaking *Making Literature Matter* draw connections between contemporary debates and literary analysis, bringing both argument and literature into a contemporary context. Through instruction in close critical reading of texts and well-supported, rhetorically sound argumentative writing, *Arguing about Literature* prepares students to read, write, and argue effectively. The third edition includes a new chapter on evaluating internet resources and visual arguments in the "post-truth" era, as well as dozens of new works of literature and argumentation. *Margaret Atwood and the Female Bildungsroman* IGI Global Examining Margaret Atwood's work in the context of the complex history of the Bildungsroman, Ellen McWilliams explores how the genre has been appropriated by women writers in the second half of the twentieth century. She demonstrates that Atwood's early work - her own 'coming of age' fiction, including unpublished works as well as *The Edible Woman*, *Surfacing*, and *Lady Oracle* - both engages with and works against the paradigms of identity which are traditionally associated with the genre. Making extensive use of unpublished manuscripts in the Atwood Collection at the University of Toronto, McWilliams uncovers influences that shaped Atwood's fashioning of identity in her early novels, paying particular attention to Atwood's preoccupation with survival as a key symbol of Canadian literature, culture, and identity. She also considers the genre's afterlife on display in *Cat's Eye*, *The Robber Bride*, *Alias Grace*, *The Blind Assassin*, and *Moral Disorder*, in which the formulations of selfhood and identity in Atwood's early fiction are revisited and developed. Atwood emerges as a writer who self-consciously invokes and then undercuts the traditions of the Bildungsroman, a turn that may be

read as a means of at once interrogating and perpetuating the form. McWilliams's book furthers our understanding of subjectivity in Atwood's fiction and contributes to ongoing conversations about the role gender and cultural contexts play in reframing generic boundaries.
